SatQuery AI — Analytical Report

Query ID: 21b29f47-e2ed-4531-b7bf-c5c53f304adf

Generated: 2026-08-31 13:51:57 UTC

1. Query

Describe the land-cover and major objects visible in this image.

2. Task Routing

Selected task	scene_captioning
Input configuration	single_image
Status	success
Dispatched tools	rs_vqa_caption

3. Evidence-Grounded Answer

The image shows water bodies covering roughly 39% of the scene. A high density of linear/edge features suggests structured or urban infrastructure (roads, buildings, field boundaries). Overall scene brightness is moderate (mean normalised reflectance 0.38).

4. Confidence Breakdown

Component	Score
evidence_strength	0.85
modality_agreement	1.00
geometric_validity	1.00
Final confidence	0.93

5. Spatial Evidence (Bounding Boxes)

No bounding-box evidence produced for this task.

Appendix — Full Execution Trace (JSON)
